OBJECTIVE

Detail-oriented Software Engineer skilled in Java, Spring Boot, and full-stack web development. Passionate about building scalable systems, writing clean and efficient code, and collaborating with cross-functional teams to deliver impactful software solutions that enhance user experience and system performance.

EDUCATION

B.Tech in Information Technology	Anurag University, Hyderabad (2026) CGPA: 8.98
Senior Secondary (XII) - Narayana Junior College	Telangana State Board 97.8% 2021
Secondary School (X) - ZPHS Athmakur (M)	Telangana State Board CGPA: 9.3 2019

TECHNICAL SKILLS

Programming Languages: Python, Java, C
Frameworks & Technologies: Spring Boot, HTML, CSS, react
Concepts: Data Structures & Algorithms, OOP
Databases: SQL
Tools: Git, Linux Command Line
Problem Solving: Solved 150+ problems on LeetCode

PROJECTS

Live Class AI Assistant (Dec 2025)

Developed an AI-powered Live Class Assistant delivering real-time speech-to-text, smart summaries, and context-aware Q&A

Implemented event-driven microservices architecture integrating Assembly AI and GPT APIs for scalable processing.

Empowerment Hub – Financial Services to the Poor (Jun 2024)

Built a Django-based web app providing vocational training and financial literacy tools. Applied design thinking to improve accessibility and inclusiveness for underserved communities.

Sustainable Fertilizer Usage Optimizer (Sep 2024)

Created an ML-powered fertilizer recommendation system integrating weather APIs and a Django backend. Improved agricultural decision-making efficiency by automating fertilizer suggestions.

CERTIFICATIONS

- NPTEL – Java Programming
- Cisco – Python Concurrent Programming
- Infosys Springboard – Basics of Python

COMPUTER SCIENCE FOUNDATIONS

- Strong understanding of Data Structures, Algorithms, and Object-Oriented Design
- Experience with debugging, testing, and scalable software architecture
